For all your exhibition and trade conference large format printing... Bart 'n' Print can deliver.

Bart 'n' Print has a full printing and finishing service to produce your Conference material. Utilising the latest quality Heidelberg, HP, Agfa and Epson printers, we can build Roller Banners, Booth Banners as well as printing all your stationery requirements such as Entry Forms, Booklets, Brochures, Flyers, Business Cards, Posters, etc. to enhance your trade display. We will deliver to your venue of choice and it's all as simple as talking to us about artwork and design or supplying your own Print Ready PDF's.

All work is started and completed on-site here in Bendigo which saves you costs on transportation and/or excessive baggage costs, as well as contributing to our local economy.

We also have available for hire Large Pop-Up Walls and Roller Banners. You simply supply the artwork which we will then print, laminate and mount. Assembly at your venue is part of the package, we will then pick up the banners and send the prints back to you once the exhibition is complete. Think of the time, money and hassle this will save you.

Another service we provide is assembly of all your conference material into bags or compendiums. Simply have your suppliers deliver to our warehouse and give us your list of inclusions and we will collate all your products together, giving you more time to organise your conference.

Finally, we can arrange promotional laser engraving on most surfaces for awards on acrylic, quality timber, glass or stainless steel to finish that memorable conference with a special keepsake.
