There is no better way to compliment your corporate conference in Bendigo than to personally experience the significant golden past of the city.

Introduce your group to the majestic sights of Bendigo with a ride aboard a Vintage 'Talking' Tram. You will be delighted as your tram depicts the glorious and heady past of the city founded on one of the world's richest goldfields.

Afterwards, discover what conditions as a miner were like during the harsh gold rush era on a fascinating underground tour at Central Deborah Gold Mine. Explore the surface of the mine with its treasure-trove of vintage mining machinery and try your hand at gold panning.

With tours daily, an Underground Function Room and Vintage 'Talking' Tram tours departing from the front door; Central Deborah Gold Mine is the perfect venue for your next conference.
